

## Simplify how you manage and pay your utility bill

### Plan ahead with Average Monthly Payments (AMP)

AOG understands that being able to plan for your monthly expenses year-round allows you to have more peace of mind. AMP allows you to have lower gas bill payments during the winter months. Your previous 11 month's bills are added to the total for the current month. This amount is then added to your accrued debit or credit balance. That sum is then divided by 12, and that's the amount you pay.

### Go Green with Paperless Billing

As an AOG customer, you can enjoy the convenience of Paperless Billing while also making a positive impact on the environment. You will receive an email notification when your bill is ready to view and have access to view past bills and payment history.

### Simplify with Automated Bill Payment

Automatic Bill Payment allows you to pay your bill automatically by charging it directly to your checking or savings account. It's not only the most convenient way, but it's the most dependable and least expensive way to pay your monthly gas bills.

*Note: Payments made after the due date are subject to late fees.*
